Dear guest,

Welcome to my personal area. Here you can find a summary of my academic and professional experience. I'm a Doctor in Computer Science Engineering at the [Polytechnic University of](#)

[Valencia](#)

. At the moment,

I'm an Associate Professor at the

[Department of Applied Statistics and Operational Research, and Quality](#)

at the same university. In the Applied Optimization Systems group I develop my research work mainly in the scheduling area. I have worked on several research projects funded by public organisations as well as private companies. In the

[publications](#)

section you can find the research papers I have worked. Moreover, I have presented several papers at national and international conferences. For more details, you can contact with me via email and/or telephone.

Best regards,

Eva
